eCOA/ePRO

Advantage eClinical eCOA/ePRO enables direct data collection from study participants and clinicians in a web-enabled device. It supports multiple modalities through a simple, straightforward interface, delivering a positive, user-centric experience. Advantage eClinical eCOA/ePRO provides a flexible and easily configurable solution which is seamlessly integrated within the Advantage eClinical Cloud.

## eCOA/ePRO Features

- **Flexible and Configurable** – Supports your validated instruments with flexible form displays (single page, multi-page, or one question per page), as well as study-level configurations for form access.

- **Mobile Enabled** – Built on a modern, responsive UX to allow participant access using modern web browsers from any tablet or smartphone, including their own device (BYOD).

- **Multilingual** – Supports multilingual data entry and is enabled to work with any translation provider.

- **Unified Data** – Fully unified with Advantage EDC, enabling real-time data access, and a seamless experience in site patient management.

- **Unified Role Management** – User roles and access are managed once at the site level as part of a complete user profile across all platform applications.

eCOA/ePRO Benefits

Better Data
Reduce data errors by removing messy, error-prone EDC-eCOA integrations and manual data transcription activities. Reduces monitoring burden.

Accessible Anywhere
Access forms anywhere with an internet connection

Rapid Deployment
Reduce build times by removing redundant steps with a fully integrated study builder.

Lower Site Burden
Self-serve PIN reset and a unified platform means fewer site level activities.

Improved Compliance
Configurable emails and SMS reminders with one-click access ensures better participant compliance.

"Emmes' ePRO solution was incredibly easy to setup and manage. Our trial participants found it simple to access and use. Best of all, it worked seamless with EDC, so all our data was in one place for easy access to combined reporting."

- Director, Clinical Operations

Advantage eClinical Cloud

The industry's first truly unified eClinical platform. A single application for patients, sites, CROs, and Sponsors to conduct clinical research. Simplifying how trials are managed, Advantage eClinical Cloud is putting the focus back on developing the next generation of treatments.
